French Expert Discusses Financial Problems Facing Peace Conference at Paris. Points Danger in Demand.

PARIS, Feb. 7. (By the Associated Frees.)—Germany is making utmost efforts to have the allies believe that she nearing bankruptcy, declared Raoul eret, chairman of the hudgel commission of the chamber of deputing and ormer minister of justice, in discussing the financial problems facing the sace conference. The first measures the conference along financial lines, a added, should be to take measures o prevent Germany from declaring erself an insolvent debtor or a bank-upt state.

tal immediately or in yearly installments.

"I do not believe that Germany at the present time is in a position to pay a large amount in cash. We must not demand from her a too heavy payment now, so as not to place her in a position where she might argue that we are strangling her and killing the goose that is to lay the golden eggs.

"Whether the installments we shall demand from Germany be twenty, thirty or fifty billions of france yearly depends entirely upon our declaion, after an investigation as to what amount Germany will be able to pay. These payments would be guaranteed by customs tariffs decided upon at the conference reserving for ourselves the right to raise such tariffs should Germany fall to meet her obligations.

society of nations. The solution of the problem, to my mind, is the foundation of a financial society of nations in which all the expenses of every beligerent opposed to Germany shall be compiled into one. An inventory of Germany's resources should then be made and she should be made to pay by every mark she can get together. Then there should be international taxation, including the neutrals, to make up the balance."

10,000 ARMENIANS NAKED AND STARVING

ATLANTA, Ga., Feb. 7. (Spl.)—That 10,000 Armenians at Mosul, Armenia, are naked and absolutely destitute is the message sent by the Belgian Consul Basra to the Armenian union in New York and dispatched to the headquarters of the American committee for relief in the Near East, by David Hinshaw, today.

In an address made in New York a few days ago, Cleveland H. Dodge pointed out that the full responsibility for the betterment of the condition of these suffering peoples rests with the roller ary Europeans will offer succor to hundreds of thousands throughout Europe. Mr. Dodge said, but a very small part, possibly none, will go to the aid of millions of men, women and children who are literally starving in Armenia. Syria and other parts of the world under Turkish domination. "It is the government's intention."

der Turkish domination.
"It is the government's intention."
said Mr. Dodge, "to use the \$100,000,000
where there are responsible governments that may enter into some arrangement for repayment of the sums
advanced. In Armenia and elsewhere
the efforts of the committee for relief
in the Near East are directed, the need
is of the utmost vigency and the people will not be able to cerice benefit
from the government's relief plans."
